

# Prepare for Climate Emergencies

with these new online Continuing Education (CE) Courses now available in the Caregiver Learning Center:

## + Climate Change & Its Connection to Care

Learn about the causes and effects of climate change, air pollution and climate change mitigation and adaptation.

## + Climate Change Vulnerability & Adaptation

Learn about climate change vulnerability and adaptation.

## + Climate Change, Planning & Resilience

Examine how planning for climate change helps in resilience.

## + Protective Actions for Climate Change-Related & Other Emergencies

Learn about common emergencies, sheltering and evacuation, safety measures for specific emergencies, rescue techniques and climate anxiety.

## + Communication for Climate Change-Related & Other Emergencies

Learn about communication plans needed during emergencies.

## + Addressing Trauma After Climate Change-Related Events

Learn about emotional, physical, psychological, and secondary trauma, its symptoms, its potential causes and ways to manage stress.

## FAQ

### Are they available in other languages?

They're available in English, Arabic, Chinese, Korean, Russian, Spanish, Ukrainian, and Vietnamese.

### If I don't have a CE training requirement, can I still access the content?

Yes, these courses are available within the Learning Library to those without a CE training requirement.

### Do these count toward my required 12 CE hours for the year?

Yes, these courses follow the same guidelines as other online CE offerings. They're available while the CE training requirement is open. Each Emergency Preparedness course is 2 hours (2 credits).
